Experience

Freelance-- Frontend Developer   *Sept 2024- Feb 2025*

- Worked as a freelance frontend developer, creating responsive and visually appealing web interfaces using **HTML, CSS, JavaScript, and Bootstrap** to ensure optimal user experience across various devices.
- Collaborated directly with clients to understand their needs, providing tailored solutions and enhancing user interfaces to align with their vision and goals.
- Focused on optimizing frontend performance through efficient code practices, reducing load times, and improving responsiveness, leading to better user engagement.

Projects

Glass Solutions- [Freelance developer] - ⬈

- Glass Solutions Website: Built a responsive and user-friendly website using **HTML, CSS, JavaScript, and Bootstrap**, ensuring a seamless and visually appealing user experience.
- Frontend Development: Utilized Bootstrap for layout structuring, CSS for styling, and JavaScript for interactive elements to create a dynamic interface.
- Mobile-First Design: Developed a fully responsive design with interactive elements, enhancing accessibility and user engagement.

VidWave- [React developer] - ⬈

- Stunning Video Section: Developed custom categories, responsive channels, and engaging video cards, allowing users to play videos directly within the app and explore related content.
- Seamless API Integration: Integrated with Rapid API for smooth and reliable video content retrieval, supporting dynamic features and an extensive video library.
- Fully Responsive Layout: Ensured an immersive experience across all devices, from desktops to smartphones, for comfortable and convenient video viewing.

Hopsies [Frontend developer]- ⬈

- Hopsies E-Commerce Platform: Designed and developed a comprehensive e-commerce web store for a retail business using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) to ensure efficient and scalable performance.
- Frontend Expertise: Took primary responsibility for frontend development, creating a visually appealing, user-friendly, and responsive interface using React.js.
- End-to-End Development: Successfully built a fully functional application by implementing end-to-end development processes, focusing on seamless user experience and optimized performance.

Education :   BSc Computer Science | *Calicut university* | *2021-2024*
